Subject: Re: Pines Area of Investigation - Draft Feasibility Study Files
Date: Wednesday, February 13, 2013 6:05:30 PM

Good Evening Matt,

Thank you for your attention on getting us access to the the Draft Feasibility Study. It's a very lengthy document. I understand this is a draft document. Therefore, I also understand your confidentiality concerns. However, I do have several questions.

How are we to interpret this document with out some independant expert opinion? With your okay, I would like to pursue this.

Will the Town be allowed any input in this document before it is finalized?

The Town has a vested intrest in the outcome of this process. Why aren't we part of it? The residents of our Town are the "most affected" and Town Government should be part of this process. At our last town meeting we discussed an issue with you that was directly due to no communication, or consultation, with our town.

I await your response as I know time is short.
Thank you in advance for your time.

Best Regards,
George Adey
Town Council President
Town of Pines

Take good care of Mother Earth.
We only borrow her from our Grandchildren.

Subject: Pines Area of Investigation - Draft Feasibility Study Files

Good afternoon:

Thank you for the opportunity to meet with you at the Town Council meeting on February 6, 2013. As you requested, the draft Feasibility Study report is being made available to you by the potentially responsible parties. The FS report is draft and will be under review until after our next meeting. Because the document is draft and will likely change after our review we would appreciate your cooperation in limiting its distribution to council members. I look

forward to our next meeting on March 6, 2013.

Thank you.

Matthew J. Ohl
